

C & C++ Programming Course – 2 Months

Vijan Computers | Beginner to Intermediate Level

MONTH 1 – C PROGRAMMING FUNDAMENTALS

- 1 Introduction to Programming & C Language
- 2 Structure of C Program
- 3 Data Types, Variables & Constants
- 4 Input / Output Functions (printf, scanf)
- 5 Operators in C
- 6 Conditional Statements (if, if-else, switch)
- 7 Looping Statements (for, while, do-while)
- 8 Functions & Arrays (1D, 2D)

MONTH 2 – C++ & OOPS CONCEPTS

- 1 Introduction to C++
- 2 Difference between C & C++
- 3 Classes & Objects
- 4 Constructors & Destructors
- 5 Inheritance
- 6 Polymorphism & Function Overloading
- 7 Encapsulation & Abstraction
- 8 File Handling (Basic)
- 9 Mini Project & Revision

COURSE BENEFITS

- 1 Strong Programming Fundamentals
- 2 Logic Building Skills
- 3 Practical Coding Practice
- 4 Certificate Provided
